Between 1 and 10 August 1954, a review of investments was held at the State Secretariat for Water Traffic and Roads with the State Planning Commission and the Deutsche Investment Bank. The purpose of this review was to procure for the state budget all funds allotted for the 1954 road bridge construction projects which possibly would not be spent by the end of the year. In July the construction headquarters was ordered to recalculate the costs of all construction projects in order to keep allotted funds for the State Secretariat for Water Traffic and Roads. The following corrections were made prior to the review:
